- Financial Safeguard

Application Whitelisting

- Unauthorized Access Prevention
- Mitigation of Malicious Software

Employee Cybersecurity Training

- Human Firewall
- Culture of Vigilance

Annual Third-Party Cyber Risk Assessments

- Proactive Risk Management
- Regulatory Compliance

THE COMPANY

With over three decades of expertise in accounting and taxation, John Geantasio is a licensed professional in both the States of New Jersey and New York. As a distinguished member of the American Institute of Certified Public Accountants and the New York State Society of Certified Public Accountants, Mr. Geantasio brings a wealth of knowledge and experience to the field.

Professional Journey

John's career journey began with his graduation from Siena College, leading him to serve as an auditor with the New York State Department of Taxation and Finance in Albany, NY. Here, he actively participated in New York State tax appeal proceedings, reviewed audit cases, and calculated income and sales tax assessments.

Subsequently, John assumed supervisory roles, first at a CPA Firm in Melville, NY, and later as a manager at Citrin Cooperman and Company in New York City. His responsibilities encompassed individual and corporate tax planning, tax preparation, and representation of tax-audited clientele.

A seasoned speaker, John frequently shared his expertise at various tax and accounting seminars throughout New York State. He also contributed as a member of the Technical Reviewer's Group in New York City.

Primary Responsibilities

John assumes key responsibilities within his firm, focusing on strategic tax planning for businesses, wealth creation strategies, outsourced CFO services, disaster relief consulting, and the preparation/review of individual and business tax returns as well as nonprofit services.

The Challenge

John Geantasio, running a reputable CPA firm in New Jersey, found himself at a cybersecurity crossroads when introduced to the Cybersecurity expert at Telco United Cyber. Initially hesitant, John agreed to undergo a third-party penetration test to assess the vulnerabilities within his firm's digital infrastructure.

John recognized the critical importance of data security in safeguarding sensitive client information, but was concerned about the potential risks and the ever-evolving landscape of cyber threats. Therefore, John sought a comprehensive solution to fortify his firm's defenses.

The Solution

After a thorough readout meeting with Telco United Cyber, John decided to take proactive steps to enhance his firm's cybersecurity. He enlisted Telco United Cyber to remediate the identified vulnerabilities and establish robust cyber practices. The collaborative efforts aimed to create a resilient information security program tailored to the unique needs of John E. Geantasio CPA LLC. The implemented solution included:

✔ Ransomware Protection

Telco United Cyber implemented advanced ransomware protection measures, creating a secure shield against malicious attacks that could potentially compromise critical data.

✔ Application Whitelisting

An application whitelisting strategy was deployed to control and restrict unauthorized applications, reducing the risk of malicious software infiltrating the firm's systems.

✔ Employee Cybersecurity Training

Recognizing that the human element is a crucial aspect of cybersecurity, Telco United Cyber provided unlimited employee cybersecurity awareness training. This ongoing education ensured that the firm's staff remained vigilant and well-informed about the latest cyber threats and best practices.

✔ Annual Third-Party Risk Assessment

To maintain a proactive approach to cybersecurity, John E. Geantasio CPA LLC engaged in an annual third-party risk assessment. This regular evaluation helped identify and address potential vulnerabilities, ensuring continuous improvement in the firm's security measures.

Results & Impact

The collaboration with Telco United Cyber empowered John E. Geantasio CPA LLC to establish a resilient cybersecurity framework. John Geantasio now rests assured that his clients' sensitive information is well-protected, and his firm is equipped to face the challenges posed by cyber threats.

By embracing ransomware protection, application whitelisting, continuous employee training, and regular third-party assessments, John has not only fortified his firm's defenses but also demonstrated a commitment to maintaining the highest standards of data security. The case of John E. Geantasio CPA LLC serves as a testament to the transformative impact of proactive cybersecurity measures in today's digital landscape.
